Mobile: +91-8864079900
Email: harshagrahari845412@gmail.com

SKILLS

- **Languages:** Python, C, JavaScript, C++
- **Frameworks:** HTML and CSS, MySQL
- **Tools/Platforms:** VS Code, GitHub, Figma, MongoDB
- **Soft Skills:** Problem-Solving, Leadership, Adaptability

PROJECTS

1. **Smart Water Level Monitoring System:** [Link](#) 2025
 - Engineered an Arduino-based water level monitoring system using an ultrasonic/float water level sensor to continuously detect and process real-time tank water levels.
 - Implemented threshold-based alert logic that triggers visual (LED) and audio (buzzer) indicators the moment water crosses critical high/low levels, preventing overflow and reducing water wastage.
 - Integrated an LCD display to output live water-level status, giving users a continuous readable interface instead of relying solely on alert indicators.
 - Designed the sensor-to-microcontroller pipeline to process readings in real time, ensuring consistent alert accuracy under varying water levels.
 - **Tech Stack:** Arduino, C++, Water Level Sensor, LED, Buzzer, LCD Display
2. **Community Development Project — Cybersecurity Awareness:** [Link](#) 2026
 - Led a community outreach initiative under the WNS Cares program to raise cybersecurity awareness and promote safe digital practices among participants.
 - Developed informative content covering common attack vectors including phishing, online scams, weak password practices, and data privacy risks.
 - Conducted awareness sessions/activities translating technical security concepts into practical, actionable safety habits for non-technical participants.
 - Drove community-level behavioral change by encouraging responsible digital hygiene and improving baseline cybersecurity literacy.
 - **Tech Stack:** Cybersecurity Fundamentals, Content Development, Public Speaking, Community Outreach

CERTIFICATES

- Introduction to Data Science | [Cisco](#) Dec 2025
- Introduction to Python | [Saylor](#) Feb 2026
- Introduction to Artificial Intelligence | [Infosys](#) Mar 2026

ACHIEVEMENTS

- Solved 200+ questions in SQL on CodeTantra platform.
- Solved 250+ coding problems on NeoColab platform.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.73**

Phagwara, Punjab
Aug 2025 – Present

SRAP College

Higher Secondary Education; **Percentage: 73%**

Bara Chakia, Bihar
Apr 2022 - Feb 2024

C M Memo High School

Secondary Education; **Percentage: 87%**

Motihari, Bihar
Apr 2021 - Feb 2022
